

*“My Abuser tends to throw or break my phone when I call 911, so I may not be able to talk after I call.”*

## Empowering Survivors of Domestic Violence

With Smart911, you can alert 9-1-1 and first responders that you are at risk of abuse so they can better help you in an emergency.

Smart911 is free, private, secure, and protects over **22 million people** nationwide.

### Personal Details

You can list if someone is at risk of domestic violence and their history of domestic violence.

### Medical

Avoid dangerous drug interactions or allergic reactions by listing your medications and conditions.

### Home

First responders can help you faster when you provide your address, access codes, and other details about your home's layout.

### Emergency Contacts

List the emergency contacts you want to be notified if you need to call 9-1-1.

**Because every second counts. Sign up today.**
