

“My abuser threatened to take my children away from me forever if I called 9-1-1 again.”

Empowering Survivors of Domestic Violence

With Smart911, you can alert 9-1-1 and first responders that you are at risk of abuse so they can better help you in an emergency.

Smart911 is free, private, secure, and protects over **22 million people** nationwide.

Personal Details

You can list if someone is at risk of domestic violence and their history of domestic violence.

Medical

Avoid dangerous drug interactions or allergic reactions by listing your medications and conditions.

Home

First responders can help you faster when you provide your address, access codes, and other details about your home's layout.

Emergency Contacts

List the emergency contacts you want to be notified if you need to call 9-1-1.

Because every second counts. Sign up today.
