"Part of the Job."

The staggering numbers behind workplace violence in healthcare.

Healthcare makes up just 9% of the overall U.S. workforce,

but it experiences nearly as many violent injuries as all other industries combined.*

47% of emergency department workers reported they were physically assaulted during work.

71% of nurses have been sexually harassed by patients.

Incidents of serious workplace violence were 4X MORE COMMON in healthcare than in the private sector.*

Patient-on-staff violence accounted for 97% of all assaults.

For every $1 invested in workplace safety programs, businesses see a return of $4-$6.

Thousands of organizations across the country leverage Rave Mobile Safety’s critical communication platform for two-way communication with staff and visitors to prevent workplace violence and respond faster to emergencies.
